COMMUNICATION

Sir:

On November 13, 2007, Applicant filed Amedment A in response to the Office Action bearing Mail Date June 12, 2007. Applicant's Amendment A addressed, among other issues, the examiner's objection to the drawings on the ground that the drawings purportedly did not show the anchoring system of claims 36 and 37. More particularly, Applicant traversed the objection and stated that the drawings in fact showed such feature, but Applicant nevertheless indicated that it would amend Figure 5 and relevant portions of the specification to add reference characters to positively identify such structure. Applicant included in its Amendement A such amendments to the specification. It has come to Applicant's attention, however, that Applicant

inadvertently omitted from its Amendment A the replacement drawing sheet showing the corresponding amendment to Figure 5. Applicant hereby submits such replacement drawing sheet and respectfully requests consideration thereof and withdrawal of the objection to the drawings.

Respectfully submitted,

Mark P. Vrla
